

COMPANY PROFILE

Cyraworks Innovation provides construction
and custom aluminum fencing solutions,
combining security and design.

Cyraworks Innovation

Cyraworks Innovation is committed to taking on bold challenges to build an innovative and sustainable future.

Cyraworks Innovation, founded in 2020 in Marrakech, Morocco, has quickly grown by anticipating market needs in the construction and aluminum solutions sectors. The company leverages its expertise to offer tailored solutions for innovative projects, combining design, durability, and performance.

Cyraworks Innovation has become a key player in these industries, with a vision focused on innovation and solid practices to meet the challenges of the future.

BUSINESS HIGHLIGHT - Cyraworks Innovation

- Custom construction projects with aluminum solutions, including fences and personalized structures.
- Expanding into sustainable urban development with the integration of eco-friendly materials.
- Recognized for commitment to sustainability and adherence to environmental standards.
- Strong demand for high-end aluminum fencing, with growing market share.
- Project in Marrakech praised for its modern and durable design.

Cyraworks Innovation

“Cyraworks Innovation” will become your trusted partner, helping you achieve operational efficiency and a sustainable future through innovative construction and aluminum solutions.

Cyraworks Innovation is a leader in construction solutions and aluminum fencing, offering high-performance, reliable, and durable products.

Driven by customer needs, we continuously innovate to push the limits of what’s possible in aluminum fencing and construction applications, ensuring we deliver sustainable, cutting-edge solutions.

Cyraworks Innovation - History (2020-2024)

- 2020** • Founded in Marrakech, Morocco, launching construction and aluminum solutions for residential and commercial projects.
- 2021** • Launched customized aluminum fencing solutions, focusing on durability and design innovation.
- 2022** • Expanded product line to include sustainable, eco-friendly aluminum solutions for urban development.
- 2023** • Introduced advanced aluminum fencing with integrated smart technology for enhanced security and functionality.
- 2024** • Celebrating the 4th anniversary of Cyraworks Innovation with continued growth in construction solutions and aluminum applications, establishing a strong market presence in Morocco and expanding into new regions.

FUTURE GLOBAL NETWORK

CYRAWORKS INNOVATION - FUTURE GLOBAL NETWORK

Cyraworks Innovation maintains strong relationships with customers and partners worldwide, spanning across R&D, manufacturing, and sales. We collaborate closely with our global network to provide innovative construction solutions and high-quality aluminum fencing, ensuring tailored, efficient, and sustainable results for all our projects.

**Cyraworks Innovation
- Africa**

- Cyraworks Innovation - Major Projects in Africa**
- Infrastructure projects in North and West Africa, providing sustainable construction solutions and aluminum fencing.
 - Commercial and residential developments in East and South Africa, offering tailored solutions for industrial and eco-friendly properties.

Cyraworks Innovation

SOLUTION LINEUP

Cyraworks Innovation offers aluminum solutions to meet various installation needs and environments. With a wide range of solutions and services, Cyraworks Innovation provides answers to your security needs and delivers the business insights necessary to ensure operational efficiencies.

Cyraworks Innovation

Aluminum Privacy Fencing

Closed Slat Model

Open Slat Model

Features

Cyraworks Innovation offers an elegant and modern aluminum fence, the perfect product to add a refined and minimalist touch to your home. The adjustable slats allow for two different installation options, providing either complete privacy or a small gap for ventilation. The universal post, also made of aluminum, allows for the creation of angles from 90° to 180° and is adjustable according to the height of the fence. It is possible to add pedestrian or driveway gates. The product is delivered complete with all necessary components for installation (posts, supports, mounting kit, etc.).

Note: Please refer to the installation instructions to view the components included in the kit.

Key strengths

- ✓ Ultra-rigid fencing
- ✓ Elegant and contemporary style
- ✓ Adjustable fence height
- ✓ Suitable for windy areas
- ✓ Matching gates

Areas of application

**Residential environments**

**Urban environments**

Available colors

RAL 9016 White

RAL 7016 Grey Textured

RAL 7037 Grey Texture
